**Formed a capital and business alliance with Corntec, Inc.,
provider of "PIGI", a livestock management service utilizes AI and big data**

AirTrip Corp. (Head Office: Minato Ward, Tokyo; President & Representative Director / CFO: Yusuke Shibata; Stock Code: 6191; hereinafter "We") conducts AirTrip Online Travel Business, IT Off-shore Development Business, Inbound Travel Agency / Wi-Fi Rental Business, Media Business, Investment Business with a corporate philosophy of One Asia.

We have formed a capital and business alliance with Corntec, Inc. (Head office: Kumamoto City, Kumamoto Prefecture; President: Yuichiro Yoshikado; hereinafter "Corntec"), the provider of an AI livestock management service "PIGI" which uses AI and big data to realize pig farming that does not rely on intuition and experience.

■ **About Corntec, Inc.**

In the livestock industry, there is still a lot of analog business management that relies on intuition and experience, such as management and ledger entries, and the old methods of weighing and managing pigs required a lot of human intervention and time, such as putting each pig on a scale to be weighed and visually measuring it, and then entering the measurements in a ledger. However, Corntec believes that it is important to reduce human intervention in from the perspective of quarantine and the current labor situation, where it is becoming increasingly difficult to secure human resources.

■ **Purpose of the Capital and Business Alliance**

This capital participation is an initiative as a part of the Investment Business and is expected to generate returns from Corntec's future growth.

The company is currently preparing to go public. To achieve that, we will make the most of our listing experience and know-how and will enable them to prepare for that efficiently.
